- Supported 300+ employees from 25+ countries during four week Apple Workshop

Projects:

Quotelee January 2018

- Twilio bot designed to enlighten and inspire users with quotes from various historical figures
- Uses nltk and a scratch implementation of KNN to retrieve results based on user search query
- Uses APScheduler to send a random quote out to all subscribed users at 9am PST
- Simply text (914) – 752 – 4388 a topic such as 'consciousness' or person such as 'Buddha' to get started
- Twilio, Python, Flask, MongoDB, nltk, APScheduler, Heroku
- <https://github.com/jroof88/Quotelee/>

Machine Learning Blog Post Feedback June 2017

- Used ML algorithms to predict amount of comments a blog would receive over next 24 hours
- Achieved an R-Squared accuracy score of 83% with KNN Regression
- Python, Pandas, sci-kit learn
- <https://github.com/jroof88/Blog-Post-ML>

Mock Netflix Recommendation System May 2017

- Created a recommendation system for a Netflix data set using Collaborative and User-Based Filtering
- Implemented recommendation algorithms such as Cosine Similarity and Pearson Correlation in Python
- <https://github.com/jroof88/Netflix-Recomm-System>

Education:

Santa Clara University — Santa Clara, California Graduation: June 2017

- **Bachelor of Science:** Computer Science (Mathematics), Software Emphasis
- **Relevant Coursework:** Data Structures, Algorithms, Database Systems, OO Design & Implementation, Web Information Management, Data Science

Technical Skills:

- **Languages:** Java, Python, JavaScript, C/C++
- **Frameworks & Libraries:** Bootstrap, AngularJS, Hibernate, jQuery, Pandas, sci-kit learn, plotly.js
- **Tools & Technologies:** Git, Heroku, Eclipse, Maven, JSON, AJAX
